Enhanced Login Security Everyday, Everywhere!

Your online security has always been a top priority. Soon, we will be upgrading your online banking experience with a new security service to further help protect you from identity theft.

Introducing Enhanced Login Security! The new security service is free, easy, and most importantly, gives you extra protection from fraud and identity theft. Sign up once at your computer and you're all set. It's that simple. The next time you login, it is business as usual and the rest of your online banking experience will remain exactly the same.

Meet Enhanced Login Security

This superior security technology protects your accounts from unauthorized access. It identifies you as the true owner of your accounts by recognizing not only your password; but your computer as well. If we don't recognize your computer (i.e. you've logged in from a public computer or one you haven't used before), an e-mail passcode will be sent to the e-mail address you have on file and will be required before accessing your account as a secondary line of defense to prevent unauthorized access. With Enhanced Login Security, you will be protected no matter which computer you are using, whether you are at home or on the go.

Enhanced Login Security will:

- Defend against identity theft and fraud.
- Provide security from any computer, wherever you are.
- Make it easy for you to bank online anytime, anywhere.

It's just one more way to ensure online fraud prevention, everyday and everywhere!

All information included in the email series will be made available at our website under the heading titled Online Security. Please stay tuned for the next installment to be sent on September 18, 2006.

Remember, First National Bank & Trust Company will never request personal or account information via email nor will we ask you to update your account information by clicking on a link. You should always treat such an email with extreme caution and manually type the bank's address into your browser. Such a request should be reported to fraud@fnbclinton.com or 217-935-2148 immediately.
